

## **Art, Music and Physical Education**

Art, Music and Physical Education courses, taught by specialists, are offered to all Kettering students K-12 as an integral part of their education, with the belief that these courses enrich and improve the quality of the lives and educational experiences of our students.

Art and Music become electives as students move to Fairmont High School, while all students are required by Kettering Schools and the State of Ohio to earn a minimum ½ credit in Physical Education in order to graduate.

Susan Bennett serves as the Kettering City Schools K-12 Art Coordinator. Michael Berning serves as the Kettering City Schools K-12 Music Coordinator. Tim Cogan serves as the Kettering City Schools K-12 Physical Education Coordinator.
